Dirt Bag, Inc. Improves on Design

Dirt Bag, Inc. announces an improvement to their Computer Dust Filter product line with a sleek new Flat Panel Monitor Cover. Engineered to keep your flat screens clean and cool while you work, the new design has tailored seams that form fit your flat panel monitors. Dirt Bag, Inc. specializes in patented technology PC filters which purify incoming air, preventing costly maintenance for computer systems.

Prolong the life of your flat panel monitor. Keep your monitors clean, cool and clear with our custom-fit dust covers. These unique covers fit all flat panel monitors. Simply measure the dimensions of your monitor and request a cover with a sleek, new design that offers a smooth attractive fit. Installed in less than one minute, this tailored dust cover comes with a money-back guarantee. Order now to protect your expensive flat panel investments.

Designed to be an economical and effective solution for protecting industrial PC's; Dirt Bag products users benefit by drastically reducing the amount of airborne dust, dirt and grime their computer's internal components collect.

A division Kiilunen Manufacturing Group, Inc., Dirt Bag is a niche oriented company that has built a product line by solving industrial challenges.
