MORE INNOVATIVE DESIGNS BY DIRT BAG, INC.

Dirt Bag, Inc. announces the upgraded version of its Flat Panel and CRT Monitor covers. A newly designed anti-static screen significantly reduces the build-up of dust on your monitor, and the cover itself. A high quality plastic used in the design process makes your computer screen more vivid and dust-free than ever before.

Responsive to customer feedback, Dirt Bag continually works to improve their revolutionary Computer Dust Filter product line.

Whether you have a Flat Panel or CRT Monitor, Dirt Bag Dust Covers keep your monitors clean and cool, extending the life of your computer systems. Specializing in patented technology PC filters, Dirt Bag, Inc. is the expert you can trust. Offering a money-back guarantee, Dirt Bag provides effective computer solutions to reduce dust, costly maintenance, and repairs.

Protect your computer investments and order today. To view high resolution images of these innovative Flat Panel and CRT Monitor covers, go to www.dirtbag.biz/press-releases.
